VOLUME 43

JANUARY - APRIL 1951

PUBLISHED MONTHLY BY
THE WISTAR INSTITUTE OF ANATOMY AND BIOLOGY
PHILADELPHIA, PENNSYLVANIA

CONTENTS

No. 1 JANUARY 1951

PAUL F. FENTON. Biography of François Magendie, with frontispiece 3

R. U. BYERRUM AND J. H. FLOKSTRA. Cocarboxylase and thiamine in tissues of rats receiving different concentrations of vitamin B_1 in the diet 17

JOSEPH GREENBERG. Some nutritional requirements of adult mosquitoes (Aedes aegypti) for oviposition. Two figures 27

B. CONNOR JOHNSON, H. H. MITCHELL, J. A. PINKOS AND C. C. MORRILL. Choline deficiency in the calf. Four figures 37

H. T. PEELER, H. YACOWITZ, C. W. CARLSON, R. F. MILLER, L. C. NORRIS AND G. F. HEUSER. Studies on the vitamin B_{12} content of feedstuffs and other materials. Three figures 49

AGNES FAY MORGAN, CAROLYN N. HUNT, LOTTE ARNRICH AND EUNICE M. LEWIS. Evaluation of five partially purified proteins by nitrogen balance in mature dogs, including a study of the antitryptic activity of egg white 63

MARY ISABEL IRWIN AND EARLE WILCOX CRAMPTON. The use of chromic oxide as an index material in digestion trials with human subjects. One figure 77

D. E. BECKER AND SEDGWICK E. SMITH. The metabolism of cobalt in lambs .. 87

LOTTE ARNRICH, CAROLYN N. HUNT, HELEN E. AXELROD AND AGNES FAY MORGAN. Evaluation of six partially purified proteins by rat growth, nitrogen retention by young rats and liver regeneration. Two figures .. 101

E. W. LEWIS, JR., C. A. ELVEHJEM AND E. B. HART. Studies on the nature of the nutritional deficiencies of wheat gluten meal. One figure 113

ELIZABETH CROFTS CALLISON, ELSA ORENT-KEILES AND RACHEL UHVITS MAKOWER. The effect of some combinations of human foods on the growth and health of the laboratory rat 131

LORIN E. HARRIS, CHARLES F. BASSETT AND C. FORD WILKE. Effect of various levels of calcium, phosphorus and vitamin D intake on bone growth. I. Foxes. Six figures 153

LORIN E. HARRIS, CHARLES F. BASSETT, LEONARD M. LLEWELLYN AND JOHN K. LOOSLI. The protein requirement of growing foxes. Three figures ... 167

ANNE W. WERTZ, PRISCILLA S. VAN HORN AND LOIS E. LLOYD. The effect of the ingestion of alcohol on the storage and excretion of thiamine 181

No. 2 FEBRUARY 1951

HENRY M. GOLDMAN AND BERNARD S. GOULD. Histologic bioassay of 3-methyl-*l*-ascorbic acid. Six figures 193

A. E. SCHAEFER, D. H. COPELAND AND W. D. SALMON. Duodenal ulcers, liver damage, anemia and edema of chronic choline deficiency in dogs. Seven figures 201

F. H. KRATZER, D. E. WILLIAMS AND BLANCHE MARSHALL. The tryptophan requirement of young turkey poults. Three figures 223

ROBERT VAN REEN, M. WIGHT TAYLOR AND WALTER C. RUSSELL. The vitamin A requirement of the turkey poult fed a purified diet. One figure 235

EDWARD G. HIGH AND HARRY G. DAY. Effects of different amounts of lutein, squalene, phytol and related substances on the utilization of carotene and vitamin A for storage and growth in the rat. One figure 245

DOROTHEA M. MABEE AND AGNES FAY MORGAN. Evaluation by dog growth of egg yolk protein and six other partially purified proteins, some after heat treatment. Four figures 261

MARJORIE M. NELSON AND HERBERT M. EVANS. Effect of pyridoxine deficiency on reproduction in the rat. One figure 281

M. B. GILLIS AND L. C. NORRIS. The effect of vitamin B_{12} on the response of chicks to betaine and choline 295

F. J. MCCLURE. Experimental dental caries in rats 303

R. A. COLLINS, A. E. HARPER, M. SCHREIBER AND C. A. ELVEHJEM. The folic acid and vitamin B_{12} content of the milk of various species 313

BACON F. CHOW. Sequelae to the administration of vitamin B_{12} to humans. Three figures 323

No. 3 MARCH 1951

S. J. SLINGER, K. M. GARTLEY, W. F. PEPPER AND D. C. HILL. The influence of animal protein factor supplements and antibiotics on the incidence and severity of white feathers in turkeys. Two figures 345

ANTHONY M. AMBROSE AND DOROTHY J. ROBBINS. Studies on the chronic oral toxicity of cottonseed meal and cottonseed pigment glands 357

HARRY J. DEUEL, JR., SAMUEL M. GREENBERG, EVELYN E. SAVAGE AND DANIEL MELNICK. The augmentation of the provitamin A potency of carotene when fed in margarine 371

HOWARD S. TEAGUE AND LAWRENCE E. CARPENTER. The demonstration of a copper deficiency in young growing pigs. Five figures 389

G. P. Lofgreen, Max Kleiber and A. H. Smith. The digestion and absorption of P^{32} labeled casein by the young calf. Three figures 401

Harold H. Draper and B. Connor Johnson. Thiamine deficiency in the lamb. Three figures 413

Ralph Hoagland, N. R. Ellis, O. G. Hankins, G. G. Snider and R. L. Hiner. Supplemental value of certain amino acids for lamb protein and nutritive value of protein in different cuts of lamb 423

Earle W. Crampton, Florence A. Farmer and F. Marion Berryhill. The effect of heat treatment on the nutritional value of some vegetable oils .. 431

Paul F. Fenton and Claire J. Carr. The nutrition of the mouse. X. Studies on the utilization of high and moderately low protein diets for growth in four strains of mice. Four figures 441

Laurine Woytkiw and Nettie C. Esselbaugh. Vitamin A and carotene absorption in the guinea pig 451

No. 4 APRIL 1951

T. H. Jukes and E. L. R. Stokstad. Studies of vitamin B_{12}, choline and related factors in the diets of chicks 459

Harold D. Wallace, Ray L. Shirley and George K. Davis. Excretion of Ca^{45} into the gastrointestinal tract of young and mature rats. Two figures 469

James F. Mead, Leslie R. Bennett, Arthur B. Decker and Melvin D. Schoenberg. The absorption of fatty esters in the mouse intestine 477

James F. Mead, Arthur B. Decker and Leslie R. Bennett. The effect of x-irradiation upon fat absorption in the mouse. One figure 485

J. R. Reed, Jr., R. L. [illegible]son and J. R. Couch. Dried whey as a source of unidentified factors for the growing chick. Four figures 501

W. E. Thomas, J. K. Loosli, H. H. Williams and L. A. Maynard. The utilization of inorganic sulfates and urea nitrogen by lambs. One figure 515

James S. Dinning, Lou Dewees Payne and Paul L. Day. The influence of folic acid, vitamin B_{12}, and methyl donors on white blood cell production in rats. One figure 525

Earle W. Crampton, R. H. Common, Florence A. Farmer, F. Marion Berryhill and L. Wiseblatt. Studies to determine the nature of the damage to the nutritive value of some vegetable oils from heat polymerization. I. The relation of autoxidation to decrease in the nutritional value of heated linseed oil 533

Earle W. Crampton, M. Isabel Irwin, Lewis E. Lloyd and Helen R. Neilson. The apparent digestibility of essentially similar diets by rats, guinea pigs, sheep, swine and by human subjects 541

MARGUERITE A. CONSTANT, PAUL H. PHILLIPS AND C. A. ELVEHJEM. Dental caries in the cotton rat. XII. Natural versus refined sugars 551

HELLEN LINKSWILER, C. A. BAUMANN AND ESMOND E. SNELL. Effect of aureomycin on the response of rats to various forms of vitamin B_{12} 565

INDEX

ADULT mosquitoes (see Mosquitoes, adult).
Aedes aegypti (mosquitoes), some nutritional requirements for oviposition of adult, 27.
Alcohol, effect of ingestion on storage and excretion of thiamine, 181.
AMBROSE, A. M., AND D. J. ROBBINS. Studies on the chronic oral toxicity of cottonseed meal and cottonseed pigment glands, 357.
Amino acids, supplemental value of certain, for lamb protein, 423.
Anemia of chronic choline deficiency in dogs, 201.
Animal protein factor supplements and antibiotics, influence on incidence and severity of white feathers in turkeys, 345.
Antibiotics and animal protein factor supplements, influence on incidence and severity of white feathers in turkeys, 345.
Antitryptic activity of egg white, evaluation of 5 partially purified proteins by nitrogen balance in mature dogs, including a study of, 63.
ARNRICH, L., C. N. HUNT, H. E. AXELROD AND A. F. MORGAN. Evaluation of 6 partially purified proteins by rat growth, nitrogen retention by young rats and liver regeneration, 101.
— See Morgan, A. F., 63.
Ascorbic acid (3-methyl-1-), histologic bioassay of, 193.
ATKINSON, R. L. See Reed, J. R., Jr., 501.
Aureomycin, effect on response of rats to various forms of vitamin B_{12}, 565.
Autoxidation, relation to decrease in nutritional value of heated linseed oil, 533.
AXELROD, H. E. See Arnrich, L., 101.

BALANCE, nitrogen (see Nitrogen balance).
BASSETT, C. F. See Harris, L. E., 153, 167.
BAUMANN, C. A. See Linkswiler, H., 565.
BECKER, D. E., AND S. E. SMITH. The metabolism of cobalt in lambs, 87.
BENNETT, L. R. See Mead, J. F., 477, 485.
BERRYHILL, F. M. See Crampton, E. W., 431, 533.
Betaine and choline, effect of vitamin B_{12} on response of chicks to, 295.
Bioassay, histologic, of 3-methyl-1-ascorbic acid, 193.
Blood cell production (white) in rats, influence of folic acid, vitamin B_{12} and methyl donors on, 525.
Bone growth, effect of various levels of calcium, phosphorus and vitamin D intake on. I. Foxes, 153.
BYERRUM, R. U., AND J. H. FLOKSTRA. Cocarboxylase and thiamine in tissues of rats receiving different concentrations of vitamin B_1 in the diet, 17.

CA^{45}, excretion into gastrointestinal tract of young and mature rats, 469.
Calcium, phosphorus and vitamin D intake, effect on bone growth of various levels of. I. Foxes, 153.
Calf, choline deficiency in, 37.
— young, digestion and absorption of P^{32}-labeled casein by, 401.
CALLISON, E. C., E. ORENT-KEILES AND R. U. MAKOWER. The effect of some combinations of human foods on the growth and health of the laboratory rat, 131.
Caries, dental (see Dental caries).
CARLSON, C. W. See Peeler, H. T., 49.
Carotene and vitamin A absorption in guinea pig, 451.
— — — — effects of different amounts of lutein, squalene, phytol and related substances on utilization of, for storage and growth in rat, 245.
— augmentation of provitamin A potency of, when fed in margarine, 371.
CARPENTER, L. E. See Teague, H. S., 389.
CARR, C. J. See Fenton, P. F., 441.
Casein, P^{32}-labeled, digestion and absorption by young calf, 401.
Cell production (see Blood cell production).
Chick(s), effect of vitamin B_{12} on response of, to betaine and choline, 295.
— growing, dried whey as source of unidentified factors for, 501.
— vitamin B_{12}, choline and related factors in diet of, 459.
Choline and betaine, effect of vitamin B_{12} on response of chicks to, 295.
— deficiency, chronic, in dogs, duodenal ulcers, liver damage, anemia and edema of, 201.
— — in calf, 37.
— vitamin B_{12} and related factors in diet of chicks, 459.
CHOW, B. F. Sequelae to the administration of vitamin B_{12} to humans, 323.
Chromic oxide, use as index material in digestion trials with human subjects, 77.
Chronic choline deficiency in dogs, duodenal ulcers, liver damage, anemia and edema of, 201.
— oral toxicity of cottonseed meal and cottonseed pigment glands, 357.
Cobalt metabolism in lambs, 87.
Cocarboxylase and thiamine in tissues of rats receiving different concentrations of vitamin B_1 in diet, 17.
COLLINS, R. A., A. E. HARPER, M. SCHREIBER AND C. A. ELVEHJEM. The folic acid and vitamin B_{12} content of the milk of various species, 313.
Combinations of human foods, effect of some, on growth and health of laboratory rat, 131.
COMMON, R. H. See Crampton, E. W., 533.

CONSTANT, M. A., P. H. PHILLIPS AND C. A. ELVEHJEM. Dental caries in the cotton rat. XII. Natural versus refined sugars, 551.
COPELAND, D. H. See Schaefer, A. E., 201.
Copper deficiency in young growing pigs, 389.
Cotton rat, dental caries in. XII., 551.
Cottonseed meal, studies on chronic oral toxicity of, 357.
— pigment glands, studies on chronic oral toxicity of, 357.
COUCH, J. R. See Reed, J. R., Jr., 501.
CRAMPTON, E. W., R. H. COMMON, F. A. FARMER, F. M. BERRYHILL AND L. WISEBLATT. Studies to determine the nature of the damage to the nutritive value of some vegetable oils from heat polymerization. I. The relation of autoxidation to decrease in the nutritional value of heated linseed oil, 533.
— F. A. FARMER AND F. M. BERRYHILL. The effect of heat treatment on the nutritional value of some vegetable oils, 431.
— M. I. IRWIN, L. E. LLOYD AND H. R. NEILSON. The apparent digestibility of essentially similar diets by rats, guinea pigs, sheep, swine and by human subjects, 541.
— See Irwin, M. I., 77.
Cuts of lamb, different, nutritive value of protein in, 423.

DAMAGE, liver, of chronic choline deficiency in dogs, 201.
— to nutritive value of some vegetable oils from heat polymerization, studies to determine nature of. I. Relation of autoxidation to decrease in nutritional value of heated linseed oil, 533.
DAVIS, G. K. See Wallace, H. D., 469.
DAY, H. G. See High, E. G., 245.
DAY, P. L. See Dinning, J. S., 525.
DECKER, A. B. See Mead, J. F., 477, 485.
Dental caries, experimental, in rats, 303.
—— in cotton rat. XII. Natural versus refined sugars, 551.
DEUEL, H. J., JR., S. M. GREENBERG, E. E. SAVAGE AND D. MELNICK. The augmentation of the provitamin A potency of carotene when fed in margarine, 371.
Diet(s), cocarboxylase and thiamine in tissues of rats receiving different concentrations of vitamin B_1 in, 17.
— essentially similar, apparent digestibility by rats, guinea pigs, sheep, swine and human subjects, 541.
— (high and moderately low protein), utilization for growth in 4 strains of mice, 441.
— of chicks, vitamin B_{12}, choline and related factors in, 459.
— purified, vitamin A requirement of turkey poult fed, 235.
Digestibility, apparent, of essentially similar diets by rats, guinea pigs, sheep, swine and human subjects, 541.
Digestion and absorption of P^{32}-labeled casein by young calf, 401.
— trials with human subjects, use of chromic oxide as index material in, 77.
DINNING, J. S., L. D. PAYNE AND P. L. DAY. The influence of folic acid, vitamin B_{12}, and methyl donors on white blood cell production in rats, 525.
Dog(s), duodenal ulcers, liver damage, anemia and edema of chronic choline deficiency in, 201.
— growth, evaluation by, of egg yolk protein and 6 other partially purified proteins, some after heat treatment, 261.
— mature, evaluation of 5 partially purified proteins by nitrogen balance in, 63.
Donors, methyl (see Methyl donors).
DRAPER, H. H., AND B. C. JOHNSON. Thiamine deficiency in the lamb, 413.
Dried whey as source of unidentified factors for growing chick, 501.
Duodenal ulcers of chronic choline deficiency in dogs, 201.

EDEMA of chronic choline deficiency in dogs, 201.
Egg white, study of antitryptic activity of, 63.
— yolk protein and 6 other partially purified proteins, evaluation by dog growth, 261.
ELLIS, N. R. See Hoagland, R., 423.
ELVEHJEM, C. A. See Collins, R. A., 313; Constant, M. A., 551; Lewis, E. W., Jr., 113.
ESSELBAUGH, N. C. See Woytkiw, L., 451.
Esters, fatty, absorption in mouse intestine, 477.
EVANS, H. M. See Nelson, M. M., 281.
Excretion and storage of thiamine, effect of ingestion of alcohol on, 181.
— of Ca^{45} into gastrointestinal tract of young and mature rats, 469.
Experimental dental caries in rats, 303.

FARMER, F. A. See Crampton, E. W., 431, 533.
Fat absorption in mouse, effect of x-irradiation upon, 485.
Fatty esters, absorption in mouse intestine, 477.
Feathers, white, in turkeys, influence of animal protein factor supplements and antibiotics on incidence and severity of, 345.
Feedstuffs and other materials, vitamin B_{12} content of, 49.
FENTON, P. F. François Magendie (October 6, 1783 – October 7, 1855), 3.
— AND C. J. CARR. The nutrition of the mouse. X. Studies on the utilization of high and moderately low protein diets for growth in 4 strains of mice, 441.
FLOKSTRA, J. H. See Byerrum, R. U., 17.
Folic acid and vitamin B_{12} content of milk of various species, 313.
—— vitamin B_{12} and methyl donors, influence on white blood cell production in rats, 525.
Foods, human, effect of some combinations of, on growth and health of laboratory rat, 131.
Foxes, effect of various levels of calcium, phosphorus and vitamin D intake on bone growth of, 153.
— growing, protein requirement of, 167.
FRANÇOIS MAGENDIE (October 6, 1783 – October 7, 1855), 3.

GARTLEY, K. M. See Slinger, S. J., 345
Gastrointestinal tract of young and mature rats, excretion of Ca^{45} into, 469.
GILLIS, M. B., AND L. C. NORRIS. The effect of vitamin B_{12} on the response of chicks to betaine and choline, 295.
Glands (cottonseed pigment), studies on chronic oral toxicity of, 357.

Gluten meal, wheat, studies on nature of nutritional deficiencies of, 113.
GOLDMAN, H. M., AND B. S. GOULD. Histologic bioassay of 3-methyl-1-ascorbic acid, 193.
GOULD, B. S. See Goldman, H. M., 193.
GREENBERG, J. Some nutritional requirements of adult mosquitoes (Aedes aegypti) for oviposition, 27.
GREENBERG, S. M. See Deuel, H. J., Jr., 371.
Growth and health of laboratory rat, effect of some combinations of human foods on, 131.
— bone, effect of various levels of calcium, phosphorus and vitamin D intake on. I. Foxes, 153.
— dog, evaluation by, of egg yolk protein and 6 other partially purified proteins, some after heat treatment, 261.
— in 4 strains of mice, utilization of high and moderately low protein diets for, 441.
— in rat, effects of different amounts of lutein, squalene, phytol and related substances on utilization of carotene and vitamin A for, 245.
— rat, nitrogen retention by young rats and liver regeneration, evaluation of 6 partially purified proteins by, 101.
Guinea pig(s), rats, sheep, swine and human subjects, apparent digestibility of essentially similar diets by, 541.
— — vitamin A and carotene absorption in, 451.

HANKINS, O. G. See Hoagland, R., 423.
HARPER, A. E. See Collins, R. A., 313.
HARRIS, L. E., C. F. BASSETT, L. M. LLEWELLYN AND J. K. LOOSLI. The protein requirement of growing foxes, 167.
— — AND C. F. WILKE. Effect of various levels of calcium, phosphorus and vitamin D intake on bone growth. I. Foxes, 153.
HART, E. B. See Lewis, E. W., Jr., 113.
Health and growth of laboratory rat, effect of some combinations of human foods on, 131.
Heat polymerization, studies to determine nature of damage to nutritive value of some vegetable oils from. I., 533.
— treatment, effect on nutritional value of some vegetable oils, 431.
— — evaluation by dog growth of egg yolk protein and 6 other partially purified proteins, some after, 261.
Heated linseed oil, relation of autoxidation to decrease in nutritional value of, 533.
HEUSER, G. F. See Peeler, H. T., 49.
HIGH, E. G., AND H. G. DAY. Effects of different amounts of lutein, squalene, phytol and related substances on the utilization of carotene and vitamin A for storage and growth in the rat, 245.
HILL, D. C. See Slinger, S. J., 345.
HINER, R. L. See Hoagland, R., 423.
Histologic bioassay of 3-methyl-1-ascorbic acid, 193.
HOAGLAND, R., N. R. ELLIS, O. G. HANKINS, G. G. SNIDER AND R. L. HINER. Supplemental value of certain amino acids for lamb protein and nutritive value of protein in different cuts of lamb, 423.
Human foods, effect of some combinations of, on growth and health of laboratory rat, 131.
— subjects (see Man).
Humans (see Man).
HUNT, C. N. See Arnrich, L., 101; Morgan, A. F., 63.

INDEX material, use of chromic oxide as, in digestion trials with human subjects, 77.
Inorganic sulfates and urea nitrogen, utilization by lambs, 515.
Intestine, mouse, absorption of fatty esters in, 477.
Irradiation (x-), effect upon fat absorption in mouse, 485.
IRWIN, M. L., AND E. W. CRAMPTON. The use of chromic oxide as an index material in digestion trials with human subjects, 77.
— See Crampton, E. W., 541.

JOHNSON, B. C., H. H. MITCHELL, J. A. PINKOS AND C. C. MORRILL. Choline deficiency in the calf, 37.
— See Draper, H. H., 413.
JUKES, T. H., AND E. L. R. STOKSTAD. Studies of vitamin B_{12}, choline and related factors in the diet of chicks, 459.

KLEIBER, M. See Lofgreen, G. P., 401.
KRATZER, F. H., D. E. WILLIAMS AND B. MARSHALL. The tryptophan requirement of young turkey poults, 223.

LABORATORY rat (see Rat, laboratory).
Lamb(s), metabolism of cobalt in, 87.
— nutritive value of protein in different cuts of, 423.
— protein, supplemental value of certain amino acids for, 423.
— thiamine deficiency in, 413.
— utilization of inorganic sulfates and urea nitrogen by, 515.
LEWIS, EUGENE W., JR., C. A. ELVEHJEM AND E. B. HART. Studies on the nature of the nutritional deficiencies of wheat gluten meal, 113.
LEWIS, EUNICE M. See Morgan, A. F., 63.

Metabolism of cobalt in lambs, 87.
Methyl donors, folic acid and vitamin B_{12}, influence on white blood cell production in rats, 525.
Mice, 4 strains of, utilization of high and moderately low protein diets for growth in, 441.
Milk of various species, folic acid and vitamin B_{12} content of, 313.
MILLER, R. F. See Peeler, H. T., 49.
MITCHELL, H. H. See Johnson, B. C., 37.
MORGAN, A. F., C. N. HUNT, L. ARNRICH AND E. M. LEWIS. Evaluation of 5 partially purified proteins by nitrogen balance in mature dogs, including a study of the antitryptic activity of egg white, 63.
— See Arnrich, L., 101; Mabee, D. M., 261.
MORRILL, C. C. See Johnson, B. C., 37.
Mosquitoes, adult (Aedes aegypti), some nutritional requirements for oviposition, 27.
Mouse, effect of x-irradiation upon fat absorption in, 485.
— intestine, absorption of fatty esters in, 477.
— nutrition of. X., 441.

NATURAL versus refined sugars. Dental caries in cotton rat. XII., 551.
NEILSON, H. R. See Crampton, E. W., 541.
NELSON, M. M., AND H. M. EVANS. Effect of pyridoxine deficiency on reproduction in the rat, 281.
Nitrogen balance in mature dogs, evaluation of 5 partially purified proteins by, 63.
— retention by young rats, rat growth and liver regeneration, evaluation of 6 partially purified proteins by, 101.
— (urea), and inorganic sulfates, utilization by lambs, 515.
NORRIS, L. C. See Gillis, M. B., 295; Peeler, H. T., 49.
Nutrition of mouse. X. Studies on the utilization of high and moderately low protein diets for growth in 4 strains of mice, 441.
Nutritional deficiencies of wheat gluten meal, studies on nature of, 113.
— requirements, some, of adult mosquitoes (Aedes aegypti) for oviposition, 27.
— value of heated linseed oil, relation of autoxidation to decrease in, 533.
— — of some vegetable oils, effect of heat treatment on, 431.
Nutritive value of protein in different cuts of lamb, 423.
— — of some vegetable oils, studies to determine nature of damage to, from heat polymerization. I., 533.

OILS, some vegetable, effect of heat treatment on nutritional value of, 431.
— — studies to determine nature of damage from heat polymerization to nutritive value of. I., 533.
Oral toxicity, chronic, of cottonseed meal and cottonseed pigment glands, studies on, 357.
ORENT-KEILES, E. See Caillison, E. C., 131.
Oviposition, some nutritional requirements of adult mosquitoes (Aedes aegypti) for, 27.
Oxide, chromic (see Chromic oxide).

P^{32}-labeled casein, digestion and absorption by young calf, 401.
Partially purified proteins, evaluation of 5, by nitrogen balance in mature dogs, including a study of the antitryptic activity of egg white, 63.
— — — — of 6, by rat growth, nitrogen retention by young rats and liver regeneration, 101.
— — — 6 other, and egg yolk protein, evaluation by dog growth, 261.
PAYNE, L. D. See Dinning, J. S., 525.
PEELER, H. T., H. YACOWITZ, C. W. CARLSON, R. F. MILLER, L. C. NORRIS AND G. F. HEUSER. Studies on the vitamin B_{12} content of feedstuffs and other materials, 49.
PEPPER, W. F. See Slinger, S. J., 345.
PHILLIPS, P. H. See Constant, M. A., 551.
Phosphorus, calcium and vitamin D intake, effect on bone growth of various levels of. I. Foxes, 153.
Phytol, lutein, squalene and related substances, effects of different amounts of, on utilization of carotene and vitamin A for storage and growth in rat, 245.
Pig(s), guinea (see Guinea pig).
— young growing, demonstration of copper deficiency in, 389.
Pigment glands (cottonseed), studies on chronic oral toxicity of, 357.
PINKOS, J. A. See Johnson, B. C., 37.
Polymerization, heat, studies to determine nature of damage to nutritive value of some vegetable oils from. I., 533.
Poult, turkey (see Turkey poult).
Protein(s) diets (high and moderately low), utilization for growth in 4 strains of mice, 441.
— (egg yolk) and 6 other partially purified proteins, evaluation by dog growth, 261.
— evaluation by dog growth of egg yolk protein and 6 other partially purified, 261.
— — of 5 partially purified, by nitrogen balance in mature dogs, 63.
— — of 6 partially purified, by rat growth, nitrogen retention by young rats and liver regeneration, 101.
— factor (animal) supplements and antibiotics, influence on incidence and severity of white feathers in turkeys, 345.
— in different cuts of lamb, nutritive value of, 423.
— (lamb), supplemental value of certain amino acids for, 423.
— requirement of growing foxes, 167.
Provitamin A potency of carotene when fed in margarine, augmentation of, 371.
Purified diet, vitamin A requirement of turkey poult fed, 235.
— (partially) proteins, evaluation of 5, by nitrogen balance in mature dogs, 63.
— — — — of 6, by rat growth, nitrogen retention by young rats and liver regeneration, 101.

— — — 6 other, and egg yolk protein, evaluation by dog growth, 261.
Pyridoxine deficiency, effect on reproduction in rat, 281.

RAT(s), cotton, dental caries in. XII., 551.
— effect(s) of aureomycin on response of, to various forms of vitamin B_{12}, 565.
— — of different amounts of lutein, squalene, phytol and related substances on utilization of carotene and vitamin A for storage and growth in, 245.
— — of pyridoxine deficiency on reproduction in, 281.
— experimental dental caries in, 303.
— growth, nitrogen retention by young rats and liver regeneration, evaluation of 6 partially purified proteins by, 101.
— guinea pigs, sheep, swine and human subjects, apparent digestibility of essentially similar diets by, 541.
— influence of folic acid, vitamin B_{12} and methyl donors on white blood cell production in, 525.
— laboratory, effect of some combinations of human foods on growth and health of, 131.
— receiving different concentrations of vitamin B_1 in diet, cocarboxylase and thiamine in tissues of, 17.
— young and mature, excretion of Ca^{45} into gastrointestinal tract of, 469.
— — evaluation of 6 partially purified proteins by rat growth, liver regeneration and nitrogen retention by, 101.
REED, J. R., JR., R. L. ATKINSON AND J. R. COUCH. Dried whey as a source of unidentified factors for the growing chick, 501.
Refined versus natural sugars. Dental caries in cotton rat. XII., 551.
REILLY, L. See Fenton, P. F., 441.
Reproduction in rat, effect of pyridoxine deficiency on, 281.
ROBBINS, D. J. See Ambrose, A. M., 357.
RUSSELL, W. C. See Van Reen, R., 235.

SALMON, W. D. See Schaefer, A. E., 201.
SAVAGE, E. E. See Deuel, H. J., Jr., 371.
SCHAEFER, A. E., D. H. COPELAND AND W. D. SALMON. Duodenal ulcers, liver damage, anemia and edema of chronic choline deficiency in dogs, 201.
SCHOENBERG, M. D. See Mead, J. F., 477.
SCHREIBER, M. See Collins, R. A., 313.
Sequelae to administration of vitamin B_{12} to humans, 323.
Sheep, rats, guinea pigs, swine and human subjects, apparent digestibility of essentially similar diets by, 541.
SHIRLEY, R. L. See Wallace, H. D., 469.
SLINGER, S. J., K. M. GARTLEY, W. F. PEPPER AND D. C. HILL. The influence of animal protein factor supplements and antibiotics on the incidence and severity of white feathers in turkeys, 345.
SMITH, A. H. See Lofgreen, G. P., 401.
SMITH, S. E. See Becker, D. E., 87.
SNELL, E. E. See Linkswiler, H., 565.
SNIDER, G. G. See Hoagland, R., 423.
Species, various, folic acid and vitamin B_{12} content of milk of, 313.
Squalene, lutein, phytol and related substances, effects of different amounts of, on utilization of carotene and vitamin A for storage and growth in rat, 245.
STOKSTAD, E. L. R. See Jukes, T. H., 459.
Storage and excretion of thiamine, effect of ingestion of alcohol on, 181.
— in rat, effects of different amounts of lutein, squalene, phytol and related substances on utilization of carotene and vitamin A for, 245.
Strains of mice (see Mice, 4 strains of).
Sugars, natural versus refined. Dental caries in cotton rat. XII., 551.
Sulfates (inorganic) and urea nitrogen, utilization by lambs, 515.
Swine, rats, guinea pigs, sheep and human subjects, apparent digestibility of essentially similar diets by, 541.

TAYLOR, M. W. See Van Reen, R., 235.
TEAGUE, H. S., AND L. E. CARPENTER. The demonstration of a copper deficiency in young growing pigs, 389.
Thiamine and cocarboxylase in tissues of rats receiving different concentrations of vitamin B_1 in diet, 17.
— deficiency in lamb, 413.
— effect of ingestion of alcohol on storage and excretion of, 181.
THOMAS, W. E., J. K. LOOSLI, H. H. WILLIAMS AND L. A. MAYNARD. The utilization of inorganic sulfates and urea nitrogen by lambs, 515.
Tissues of rats receiving different concentrations of vitamin B_1 in diet, cocarboxylase and thiamine in, 17.
Toxicity, chronic oral, of cottonseed meal and cottonseed pigment glands, studies on, 357.
Tract, gastrointestinal (see Gastrointestinal tract).
Treatment, heat (see Heat treatment).
Trials, digestion, with human subjects, use of chromic oxide as index material in, 77.
Tryptophan requirement of young turkey poults, 223.
Turkey(s), influence of animal protein factor supplements and antibiotics on incidence and severity of white feathers in, 345.
— poult(s) fed a purified diet, vitamin A requirement of, 235.
— — young, tryptophan requirement of, 223.

ULCERS, duodenal, of chronic choline deficiency in dogs, 201.
Unidentified factors for growing chick, dried whey as source of, 501.
Urea nitrogen and inorganic sulfates, utilization by lambs, 515.

VAN HORN, P. S. See Wertz, A. W., 181.
VAN REEN, R., M. W. TAYLOR AND W. C. RUSSELL. The vitamin A requirement of the turkey poult fed a purified diet, 235.
Vegetable oils, effect of heat treatment on nutritional value of some, 431.
— — studies to determine nature of damage from heat polymerization to nutritive value of some. I., 533.
Vitamin A and carotene absorption in guinea pig, 451.
— — — — — effects of different amounts of lutein, squalene, phytol and related substances on utilization of, for storage and growth in rat, 245.
— — requirement of turkey poult fed a purified diet, 235.

— B_1, cocarboxylase and thiamine in tissues of rats receiving different concentrations of, in diet, 17.
— B_6, effect of aureomycin on response of rats to various forms of, 565.
— B_{12} and folic acid content of milk of various species, 313.
—— choline and related factors in diet of chicks, 459.
—— content of feedstuffs and other materials, 49.
—— effect on response of chicks to betaine and choline, 295.
—— folic acid and methyl donors, influence on white blood cell production in rats, 525.
—— sequelae to administration of, to humans, 323.
— D, calcium and phosphorus intake, effect on bone growth of various levels of. I. Foxes, 153.
